

Dear Miss Andolyn Medina,

Thank you for collaborating with A. Reddix & Associates as a facilitator for our first Healthcare Academy. We hope you enjoyed working with the fifth grade classes as a facilitator of our interactive healthy living session, Seatack's Next Role Model. As you witnessed, the healthy living sessions are designed after popular media themes to creatively promote health awareness and demonstrate how healthy choices can be incorporated into their lives as youth.

Thanks to your participation, we are excited in going forward to help children throughout Hampton Roads make healthy decisions for a healthy lifestyle. A written statement of your thoughts and support, concerning the need for this program in Virginia Beach City Public Schools would be appreciated as we continue building support in the community. We always welcome your feedback, insight, and advice moving forward. Please feel free to contact myself at the information below or our CEO, Angela Reddix at 757-410-7704.

Thank you,
Marcus A. Calabrese
